

Pilots

super

◆

PILOT SUPER is an epoch-making pen produced after many years researches and experiments. The barrel and cap are of the equal diameter with delicate lines from the tip of nib to the top of pen, and with new design accompanied by logically devised mechanism, it is of the most comfortable writing the Pilot have ever introduced. This is the highest grade pen for practical use as well as accessory purpose.

• **Characteristics**

1. Designed to give smooth running and to furnish the delicate touch of 14kt. gold nib to the fullest extent, besides the modern style.
2. Made to furnish smooth flowing of ink.
3. Designed to prevent ink from dripping.
4. Ready for smooth writing even after keeping pen uncapped for a long time.
5. Cap is made to fit to the neck with spring and proper moisture is always kept at the pen point.
6. Being tip-filler, ink is fully absorbed into inner rubber tube merely by soaking nib as far as the pen hole.

• **Direction**

1. Screw off the neck part and remove the cover as shown in Fig. 1.
2. Holding the metal cover put the pen nib into ink bottle as far as the pen hole, then push the knob at the top down and up. Within four seconds ink will be fully filled into the tube.
3. After filling, put the cover back for ready service.
